

TWO'S TRIBUNE ...

May 2010

It's May! The flowers are blooming, the birds are singing and the sun is hot! Our lesson plans this month include: "We travel with our family", and "We enjoy day and night." The discussion about travel always brings up family vacations, so if you are planning a vacation talk to your child about it, or send in a photo or picture of your travel destination. It will give them an opportunity to share with the rest of the class.

We will also have a camp site set up for our Day and Night topics. We did this last year and the children loved it. We will bring in our lanterns and flashlights, tell stories and make smores!

With summer just around the corner, we want to remind you to put sunscreen on your child in the morning and we will re-apply for the afternoon sun. Also, any supplies, clothes and bedding should have a name or initials on it. This keeps us from sending the wrong items home. We welcomed Jackson to our class and look forward to getting to know him.

As always, if you need to reach either teacher you can send us an email at jjohnson@hclm.org or gcrestman@hclm.org
